I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

RELICS OF THE ANCIENT RACES. Wheat and Corn Buried and Bealed up for Ages.

A wonderful and valuable find has been made near Yums, Arizona. In a cut, 12 feet in depth, on the Mohank canal, now in progress of construction, was found six weeks ago, an "ollo" or earthen jar. The "ollo" was in the shape of a large bottle, and its narrow neck was scaled up with a thick coating of mesquite gum, while the outside of the vessel was painted with very remarkable and fantastically drawn designed drawings. Nothing was thought of the "ollo" until one day when Mr. George Norton picked it up and noticed its peculiar appearance. Upon breaking the scaled top it was found to be filled with corn, weighing about thirty pounds. The corn was snow white, and the kernels large, yet extremely tender. The corn was planted in a tract of nearly ten acres, and just thirtyfive days from the date of planting roasting ears were taken from the field. The corn is very sweet and produced an immense crop. The plants did not grow over two and one-half feet high, and bore from three to six large-sized, well-filled ears of corn. The Yuma the present law, promising a re-enact. Sentinel says: All who have seen the corn on the Mohawk canal speak of the gave. Mr. Norton has 'topped' the corn and will use all that matures to According to the estimate made by the seed a large patch of corn-land next

A SIMILAR FIND IN SOUTHERN NEVADA. About fifteen years age, at the Mormon settlement of St. George, in Lincoln county, Southern Nevada, a similar find was made by Amasa Potter, a Mormon Bishop, Bishop Potter had the curiosity to open an Indian mound The majority and minority reports near his place. In the mound were found human bones of such great age that they fell to pieces on being exposed to the air. With the remains were arrow-heads of obsidian, knives of the same, and some fragments of pottery in the bottom of the mound, the foundation of which was solid rock. In this rock had been excavated a square pit two feet wide, three feet long and about a yard in depth. Flat atones formed a covering for the pit, and removing them was found what appeared to be a mixture of bran and flour-pounded wheat, This was light and dry, but on digging into it there was found over a pack of beautiful whole grains of wheat.

> Bishop Potter sowed the wheat and it grew well. It had a very large and unusually white grain. The wheat was ound superior to any that had before been cultivated in that region, and well adapted to the climate and soil. In the same vicinity are many similar mounds and they to this day remain unopened. It is probable that in some of these might be found seeds and bulbs of various kinds that would prove of value to the white farmers of the Great Basin region. So says the Enterprise.

> Bishop Oberly is the best abused man in Washington. It all comes from his fellow-Democrats who are mad because he has been named for Indian Comnissioner. They are jealous that Illinois should get another plum from the Administration. It is true, as these partisans say, that the Prairie State has got more good things from President Cleveland than any State except New York. It is also true that neither Mr. Cleveland nor anybody else believes there is any likelihood that Illinois will give a Democratic majority. The bestowal of such a good position on the State is therefore looked upon as a pure waste of campaign fodder. This is not the case. Oberly has done enough to make things easy for Democrats under the Civil Service law to entitle him to the best place under the party. Yet this is forgotten, and a howl goes up that patronage is not placed where it will do the most good. Oberly can afford to take the abuse calmiy, as he will be confirmed unless some of the disappointed Democratic Senators demand his rejection.

Senator Sherman on the New Bill

Washington, Oct. 3 .- Allison reported the tariff bill in the Senate today, and said he would call it up for action on Monday.

Sherman said he would be compelled to leave early this afternoon and would like to be indulged in making a few remarks on the tariff bill. Unanimous consent was given and be addressed the Senate.

He complimented the sub-committee on its work and severely criticised the House bill. In his judgment there would be few defects found in the Sen! ate substitutes. It would be found to be a very perfect bill. Among other things it was a substantial compendium of provisions for the collection of internal revenue and costome duties. It contains a positive reduction of the revenue to the extent \$73,688,000. The reduction was on few articles. He believed the Senate bill was on the whole the best revenue bill ever introduced in Congress, and if it could be taken up, free from party prejudices and considered and abated and amended, it might be made the most perfect revenue measure ever put on the statute book. The issue was now fairly made before the people and was to be tried by them. It was a plain, fair, square issue between "tariff for revenue only" and "tariff for revenue and "protection." It was a question whether the articles necessary for human life should be made by American labor or by foreign labor, and whether the wages of the American laborer should depend on the American policy of protecting all forms of labor production.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all thir is dangerous and if allowed to procoed will in time cause death. At the Assemblymen, J. D. Campbell, Henry onset you must act with promptness; al-Bush; Recorder, Aaron D. Campton; lowing a cold to go without attention is dangerous and may ose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Bochee's German Syrap. It will give you immediate relief.

Advice to Mathers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? PLATFORM AND RESOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

Resolved. That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of laber and property is the most important political question awaiting solution by the American people.

Resolved. That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, entiches the oreditor, impoverishes the debtor, and par-alyzes industry and enterprise.

Resolved. That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and lean to National banks without interest, is subversive of the rights of the people oppressive, unjust, and should be repudiated.

Resolved, That a financial policy whereby both gold and silver shall form the lasts of circulation, whether the money used by the people be coin, or in certificates redemable in coin, or oth, as convenience may require, is impera

Resolved, That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people, that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has faudulently demonstrated silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.

Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which futtens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the usures while it depresses the price of labor and property.

Resolved. That we favor the nomination of no man for President who is personally interested in National banks or the bonned indebt-chess of the United States, but we demand a candidate who is not do justice to all the people of the country—the poor as well as the rich.

Ristic d That the trickery of the President and his advisers by which they prevented a vote in the Gouss of Representatives on the Beck silver anendment to the Bond purchasing bill, equals the villainy of the secret and fraudulent demonstization of silver in 1873.

II Resolved, That we are in favor of the protection of home industry, and that the laborers of

Resolved. That we charge President Cleveland with violating every premise he made in tavor of civit hereta i to m, with rippling the mail services, with critising to her me cessary bills for the improvement of livers and habors, with using the power of his Administration to prevent appropriations for a navy and const defenses, with attempting to destroy the protective tarift, with courting the good will of other nations at the expense of the citizens of the Un'ted States, and with joining the fereign bondholders to demonstrate sliver and destroy the industries of our country, and for the reduction of wages of the lillnt employes at Calson, for clocking the Carson Mint when it was not only self-sustaining but a source of revenue to the Government, for its contemptions yet of pension bills for the relief of disabled solders and sallors, and for failing to construct the Government building at Carson as required.
